

## P2 Units Quiz

1. What is speed measured in?
2. What is acceleration measured in?
3. What are work, kinetic energy, gravitational potential energy, energy transferred measured in?
4. What is momentum measured in?
5. What is power measured in?
6. What is resistance measured in?
7. What is charge measured in?
8. What is potential difference measured in?
9. What is current measured in?
